Summary

Timothy has always had a dream of being Iron Man since childhood. A decade later, he is (currently) pursuing a B.S. in Information Technology. He has a passion for and specialises in Data Science and Machine Learning. He is also quite experienced in Software Development and Web Development Technologies.

He is a leader who believes in transformational leadership; Tim is well experienced in working with young people, teams and other leaders. He can communicate flawlessly in writing and is well equipped with public speaking skills and public relations.

In University, I started a club that progressively mobilises students for humanitarian and environmental causes within and around the institution's vicinity. I could only achieve as much by inspiring members of the club to stand for change and growth.

Experience

Campus Ambassador

Moringa School

Apr 2020 - Present (5 months +)

My main responsibility is to generate new leads among the campus population by using the following tactics:

- Identify and actively introduce Moringa School to campus groups/leaders.
- Developing creative ideas to assist in campus outreach efforts.
- Identifying the types of events most likely to engage students' imaginations and interests, and strategies to encourage attendance.

Mathematics - Physics Tutor

Kibunde High School

Jan 2019 - Apr 2019 (4 months)

My responsibilities were anchored in the following areas:

- Teach Physics to Forms 1 and 2
- Teach Mathematics to Forms 1 and 3
- Lead the Revision Programme for the Candidate Class

Impact

- Mentored 3 candidates to qualify for university
